Save up to 75% on your prescription medications with this free program!

What is this program and how can it help me?

The FreeRxPlus Prescription Savings Program is a program that benefits the uninsured. Anyone without prescription coverage can take this card to a participating pharmacy when they drop off a prescription and receive a savings on their medication.

How much of a discount will I get?

Discounts vary depending on the medication and the pharmacy. Discounts typically range from 15% to 75%, with the largest savings coming from generic medications. The program has provided savings as high as 90% and the customer will always receive the lowest price at the pharmacy!

Where can I use the card?

With over 54,000 participating pharmacies, it is simple to find a pharmacy that will accept the FreeRxPlus card. Visit **www.freerxplus.com/FRP00053** or call 1-888-412-0869 to find participating pharmacies in your area. Nearly all major chain pharmacies and most independent pharmacies throughout the United States and Puerto Rico are included in this program such as:

- Albertsons
- Costco
- Duane Reade
- Vons
- Kmart
- Kroger
- Publix
- Rite Aid
- Target
- Walmart
- Walgreens
- Winn Dixie

How much does it cost to participate?

The FreeRxPlus Prescription Savings Program is ***free***. We provide this service to all individuals and families that wish to save on their prescription prices.

When does the card expire?

The card has no expiration date and can be used each and every time you have a prescription medicine. You can even share the same card with your friends and family. All cards are active and ready for use.
